

SUBJECT: Surveying and Field Work as Part of Upcoming Sewer Project

Dear Customer:

Charlotte Water (CLTWater) has hired a team to design a project to provide for future sewer needs. This project's name is "Goose Creek Sanitary Sewer Extension to Fairview Road." This project will connect existing and future sewer lines along Goose Creek until it reaches Mint Hill Veterans Memorial Park (see location map on the reverse side) and to initiate city public wastewater treatment service in a predominantly septic area. The design team will be using the next 5 months to determine the proposed route.

This letter is to notify you that authorized representatives working on behalf of Charlotte Water may be working on or near your property on one or more occasions during this time period. During this period, it will be necessary for Charlotte Water and authorized representatives' personnel to enter upon your property to conduct surveys, examination, appraisal and other investigations as may be necessary for work on this project. Their activities should not inconvenience you in any way. All field crew are instructed to wear identifying clothing (i.e. companies' logo or a safety vest) to identify themselves. In addition to personnel, residents could see minor clearing activities in the area, survey stakes/flags, paint markings on the ground, and small machinery used for geotechnical borings. A list of companies that are involved with this project is included below:

- Merrick & Company
- Crowder Construction
- Hinde Engineering
- Yellow Duck Marketing
- Carolina Wetland Services
- Capstone
- Sweetwater
- Avioimage
- TELICS
- Gavel & Dorn

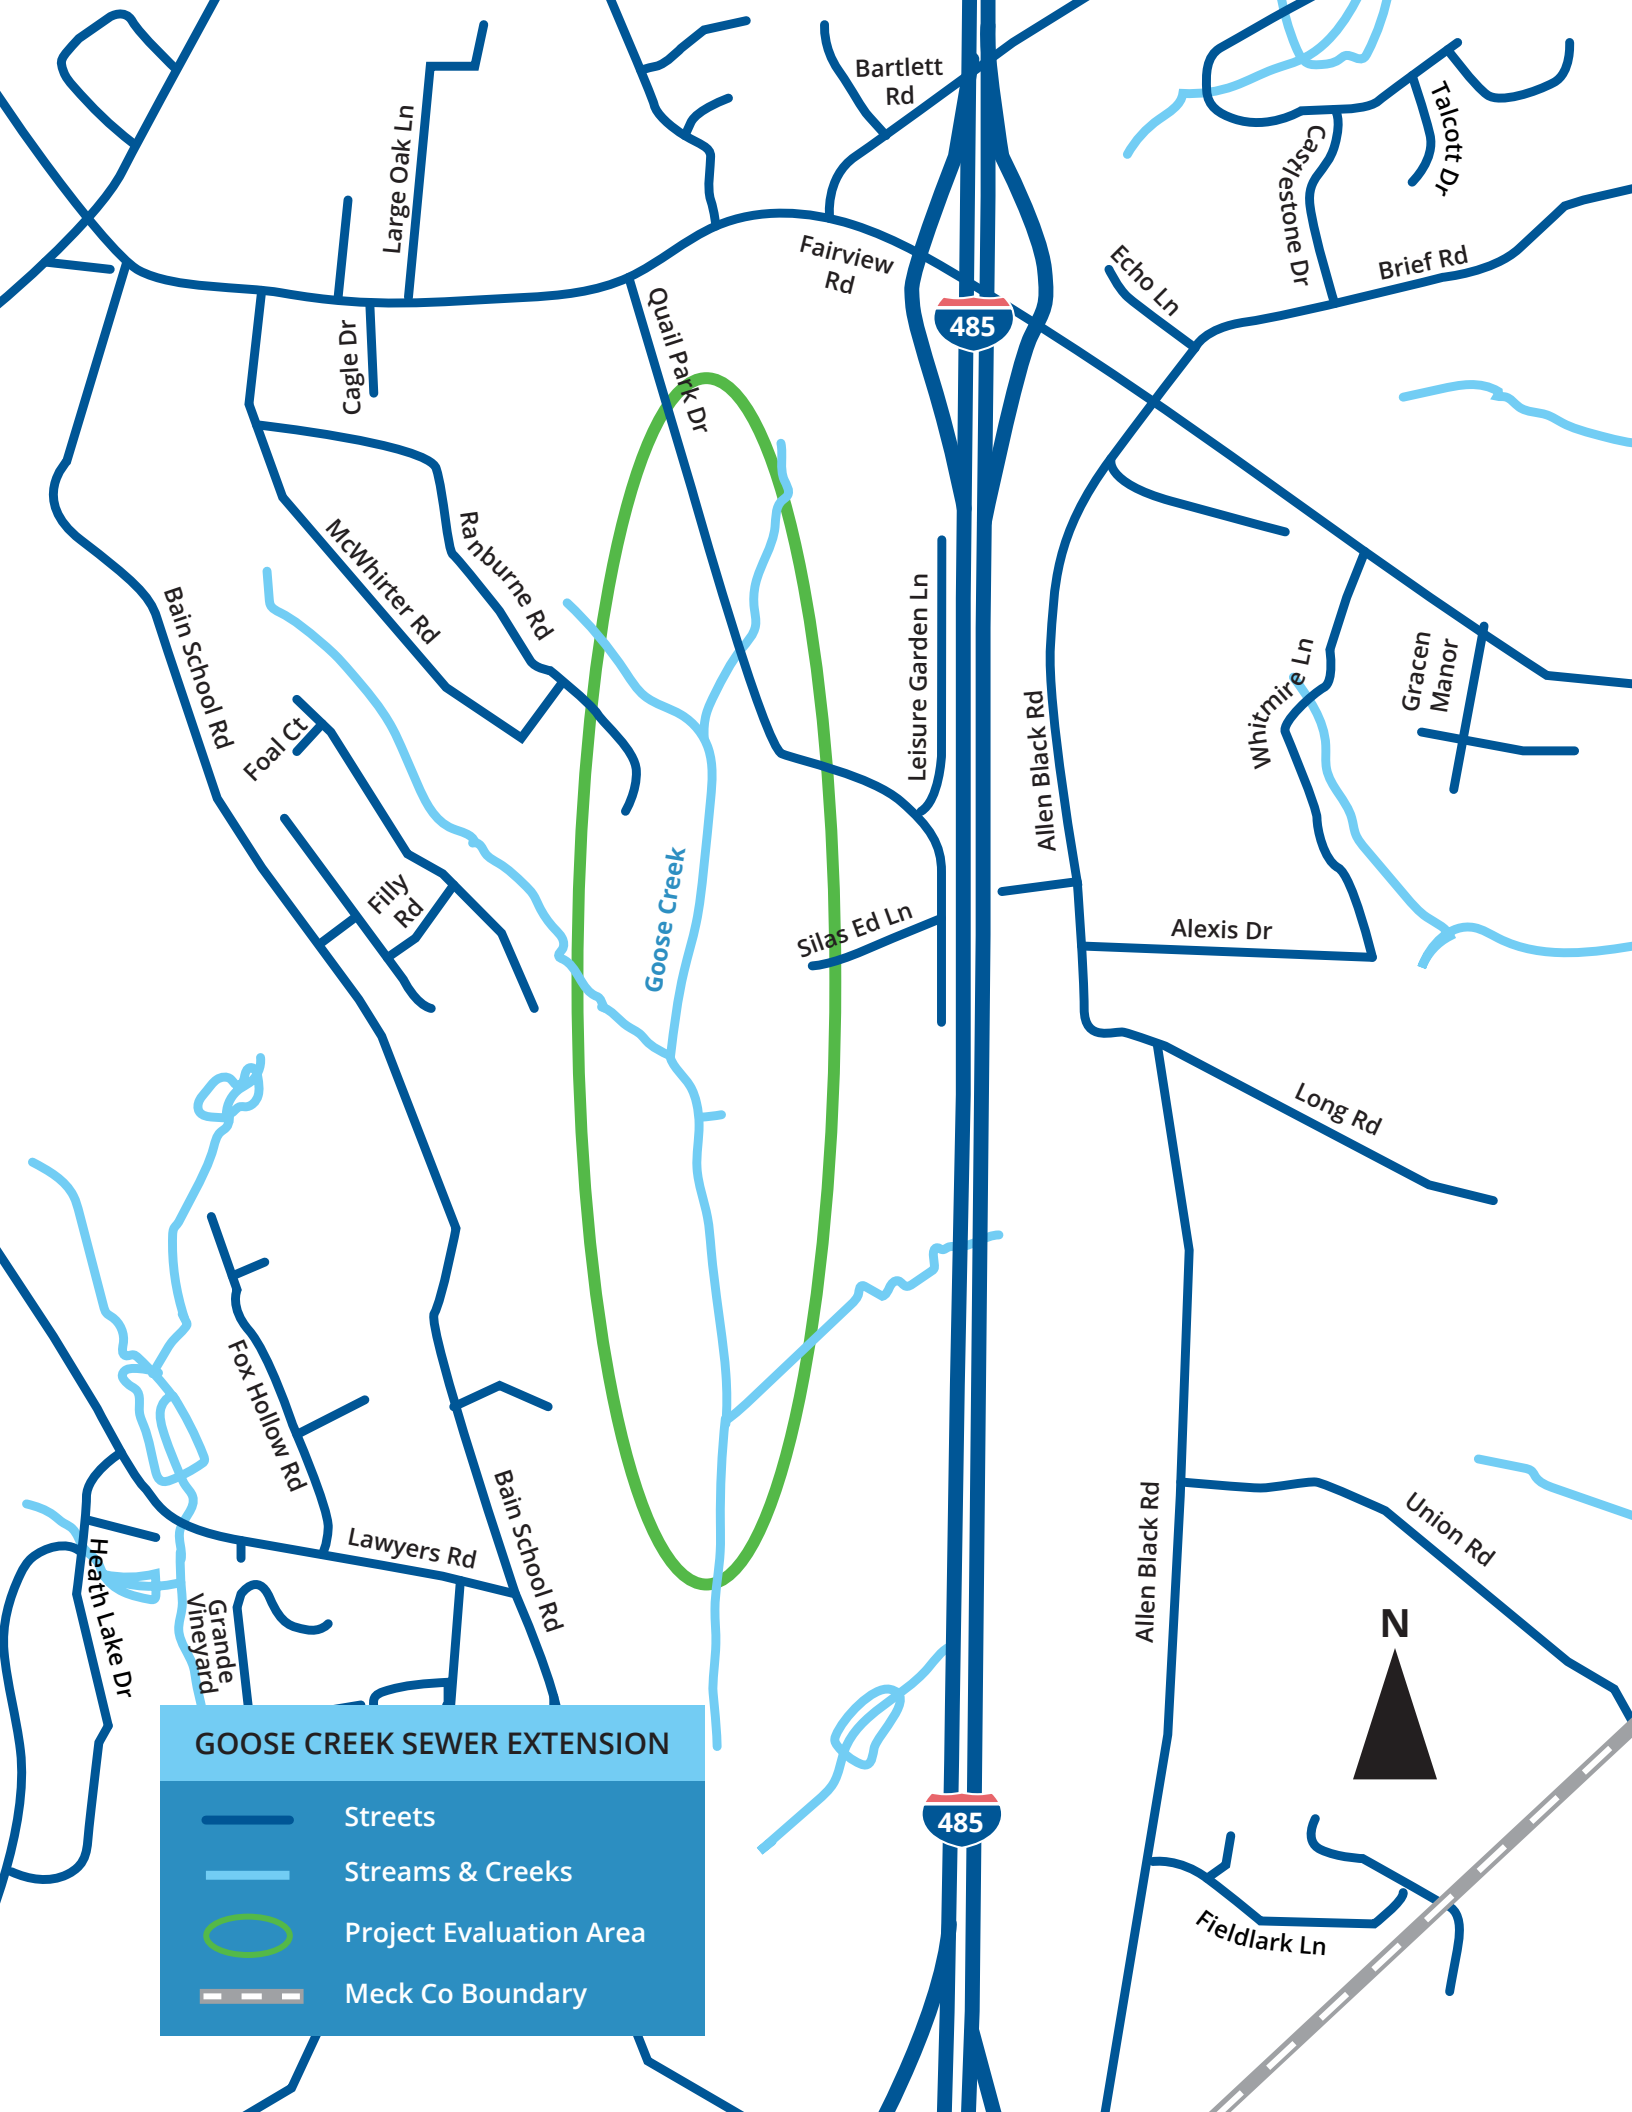

Additional information, including further technical details, can be found on Charlotte Water's website at: charlottewater.org. *Click on Projects, then Construction.*

I am your source of information for this project. Please call me at 704-336-1007 if you have questions. Thank you for your cooperation and patience as we move forward with this important project. If we determine that this project will have any direct impact on your property, we will notify you further as the project progresses.

Regards,

Nicole Bartlett, PE
